

LIE ON YOUR BACK WITH BOTH KNEES UP,
ARMS OUT TO THE SIDE AT A 90° ANGLE.

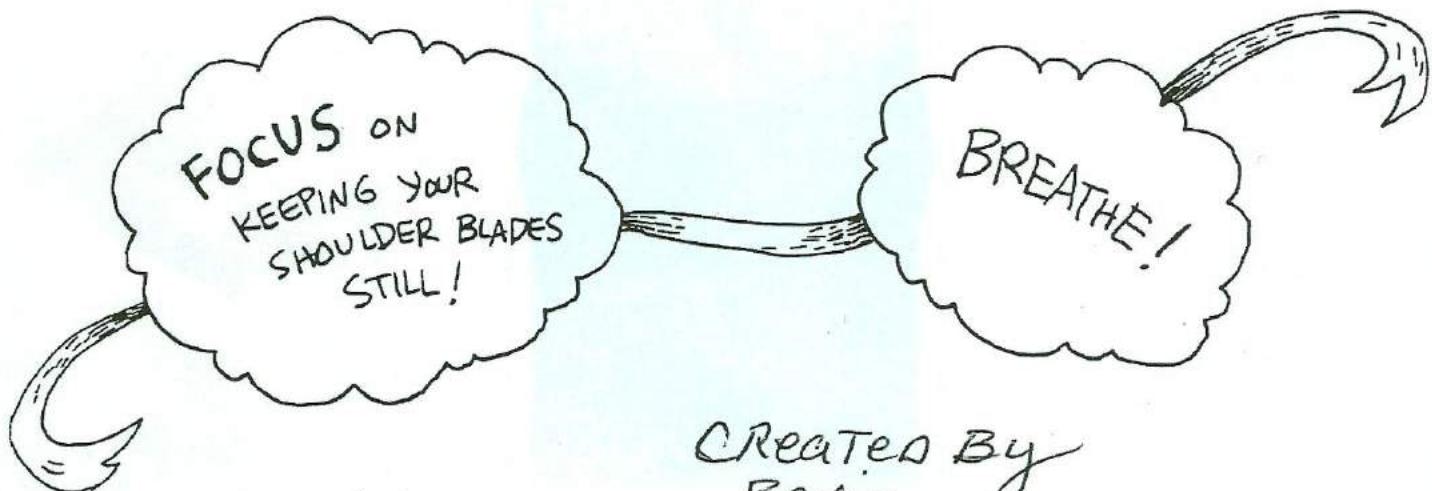

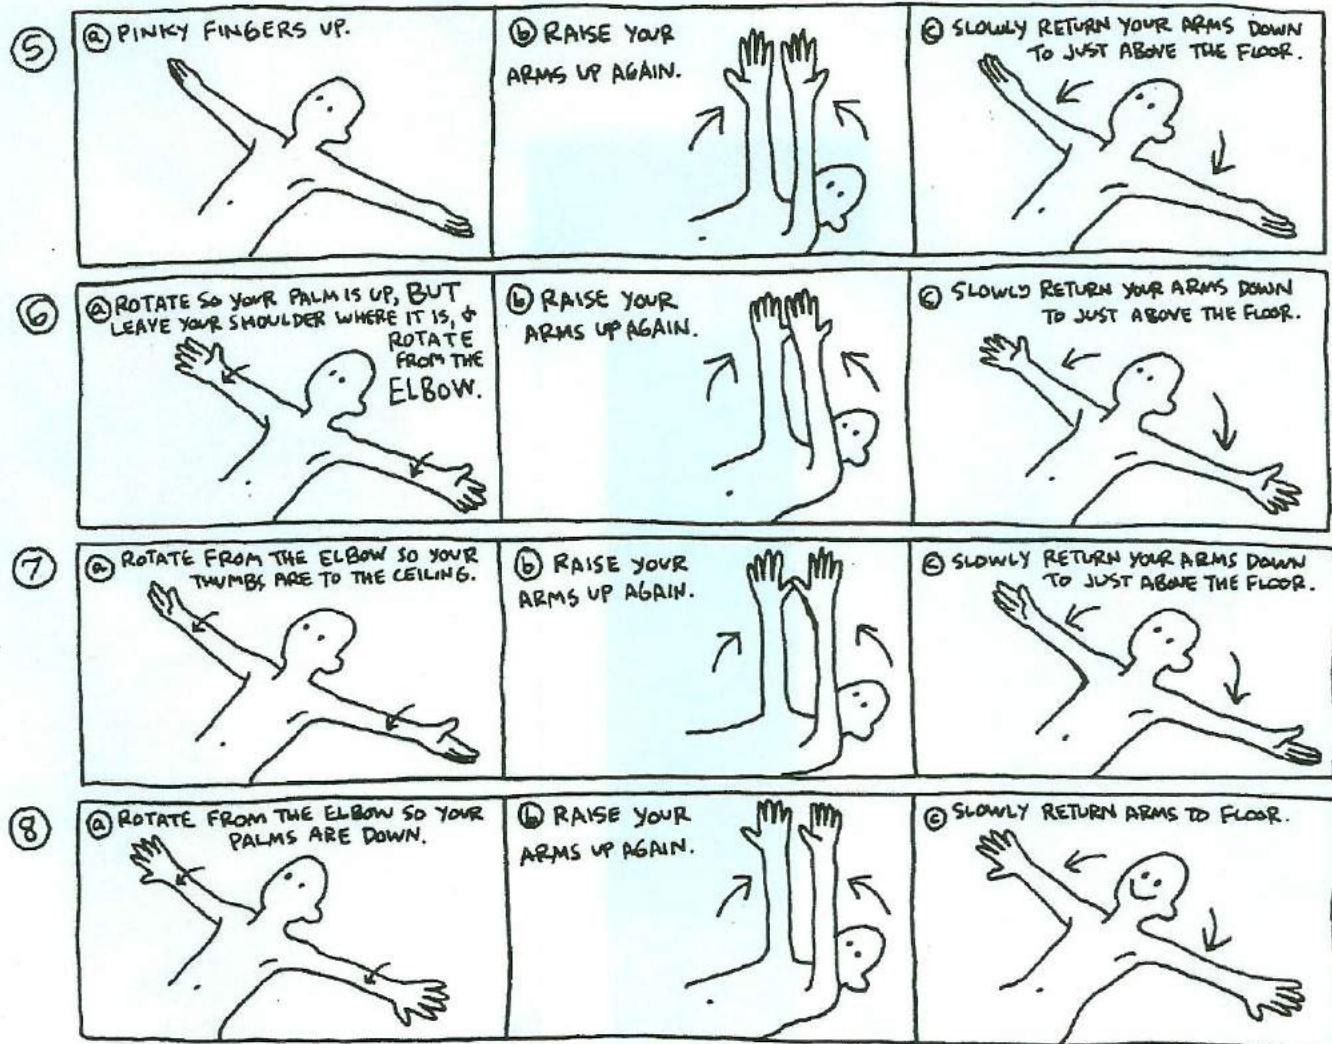

STAY AWARE OF YOUR SCAPULAS
(SHOULDER BLADES). THEY SHOULD IDEALLY
REMAIN FLAT ON THE FLOOR WHILE
ARMS MOVE IN THE SHOULDER SOCKET.
IF YOUR SHOULDER BLADES START TO RAISE
UP OFF THE FLOOR BEFORE THE BACKS OF
HANDS ARE FOUR INCHES APART, STOP
AT THAT POINT.

more →

ARM EXTENSIONS, CONT'D.

REPEAT THE SEQUENCE BACKWARDS, ONLY THIS TIME YOU'LL ROTATE FROM THE ELBOW INSTEAD OF FROM THE SHOULDER.
